

## “Enterprise” HIE Program Grant - Questions & Answers (Updated 05/07/13)

<b>GENERAL INQUIRIES</b>	
1	<p><b>Question:</b> What Health Information Exchange (HIE) is the state running?</p> <p><b>Answer:</b> The Arizona Strategic Enterprise Technology (ASET) office is managing the implementation of the Office of the National Coordinator (ONC) health information exchange (HIE) cooperative agreement program. The State of Arizona is not building its own exchange but awarded an RFP to the Health Information Network of Arizona (HINAZ) to build a provider directory, record locator and master patient index that will allow all providers to access it. The contract with the Health Information Network of Arizona goes until December 31, 2013.</p>
2	<p><b>Question:</b> Is there a requirement to provide letters of support?</p> <p><b>Answer:</b> No. This is not a requirement of the grant.</p>
3	<p><b>Question:</b> Will the six month award performance period be able to be extended?</p> <p><b>Answer:</b> At this time the ASET HIE Cooperative Agreement program is scheduled to end on February 3<sup>rd</sup>, 2014. ASET has no information from ONC they will allow extensions, so ASET cannot offer extensions to our grantees. In order to be able to process all invoices by the time the grant ends, ASET is asking for all final invoices to be due two weeks after the close of the grant in order to allow for reimbursement.</p>
<b>PART I: AWARD INFORMATION</b>	
4	<p><b>Question:</b> Will ASET award the full amount requested by an applicant or is it ASET’s intent to use its discretion and award a different amount than what was requested by the applicant?</p> <p><b>Answer:</b> The review team will award the full ask amount requested by an applicant with the caveat that budgets will be reduced if an expense is found to be unallowable or ineligible or needs to be pro-rated for the grant period. Example: subscription costs.</p>
5	<p><b>Question:</b> How does ASET want each applicant to share its technology plan? On page 6 of the program guidance, it states “. The plan will need to address how the organization will enable greater information sharing with unaffiliated organizations over the course of the next three (3) years.” Is ASET looking for something specific here?</p> <p><b>Answer:</b> ASET has not been prescriptive as to how the applicant should share its plan. Just please follow the same page and length restrictions identified in the guidance (<a href="http://hie.az.gov">http://hie.az.gov</a>) on page 13.</p>
<b>PART II: ELIGIBLE APPLICANTS</b>	
6	<p><b>Question:</b> Does ASET look “more favorably” on applications from organizations who exclusively service medically underserved populations?</p> <p><b>Answer:</b> The grant requirement is that each applicant describes how it targets and provides care to medically underserved and low income populations as well as the needs of special populations. ASET will deduct points if an applicant cannot describe how it meets the requirement but does not award extra points for organizations who exclusively serve medically underserved populations.</p>
7	<p><b>Question:</b> Can ASET please define or describe the organizations that are eligible?</p>
